

## Exploratory mission in China for the New Frontiers in Food Consortium

March 13-17, 2017 - China

In the framework of NFIF, Wagralim spent one week in China from March 13 to March 17 in order to visit potential Chinese partners (Henan Province, Shanghai and Beijing).

The cluster has visited industry federations, research centers, technological agencies, biotech parks, the potential Chinese partners showed a real interest in the approach and interesting partners have been identified.

Wagralim also spent two days at the Alibaba headquarters to have a better understanding of the online platforms developed by this “Giant e-business distributor”.
